

## 2024 Latinx Activism Week

### Funding Proposal Application

#### About Latinx Activism Week:

Latinx/e Activism Week celebrates the historical contributions of Latinx/e individuals including Cesar Chavez, Dolores Huerta, Dr. Priscilla Falcon and others as both a commemoration and act of resistance. This week's programming is a collaborative effort between El Centro, Campus Activities, the Morgan Library, and other campus partners to highlight activism through coalition building, solidarity, and the power of the Latiné community.

This year, to honor student activism, we are collecting proposals from student(s) that aim to make a difference in their community. Proposals can include community service projects, artwork, or anything else that celebrates the theme of Latinx/é Activism Week 2024.

Projects should focus on activism, coalition building, solidarity, and the power of community; designed to support and uplift the Latinx/é community. We want students engaged in solidarity work that centers the community at the heart of social change and liberation. Successful applications should demonstrate elements of Harro's Cycle of Liberation (2008).
